CONTENT OF THE FUTURE

VENICE, CA • SAINTROGUE.COM/MEDIA

✕ WHO WE ARE

Saint Rogue's newly formed Media division has recently launched with a full slate of TV, Film, and Animated projects. With roots in music production and publishing, Saint Rogue is focused on projects in which original songs and scoring are integral to the storytelling, and designed to capitalize on the many additional revenue streams available today — something with which Saint Rogue is intimately familiar.

✕ WHAT WE'VE DONE

After selling over 14 million records, producing three Top 10 albums, and collaborating with a wide variety of artists including Sia, Britney Spears, and Coldplay (to name just a few), Saint Rogue spent the last several years writing and producing hit songs and music for TV, Film, and Video Games. With clients including Disney, Netflix, Nickelodeon, and Sony, they're six-time Telly winners, with four Emmy nods, a Clio, a 2019 BMI Film and TV Award, and over 1000 placements.

✕ WHERE WE'RE GOING

As we expand into original programming with a new team of writers, directors, and producers, the goal is to create quality content that continues to lean heavily on all genres of music. With an in-house studio, record label and publishing catalog, an ever-expanding roster of artists, along with 25+ years of industry connections and know-how, Saint Rogue is in a unique position to deliver broadcast-ready, fully licensed music as part of every project we sell.
